

“Let’s Be Blunt”

The North Central District Health Department and the Area Substance Abuse Prevention Coalition would like to let the public know: “The statistics are in, and they show that Colorado's marijuana (MJ) legalization has not only resulted in the increase of use by people of all ages in the state, but has also impacted the incidences of impaired driving while under the influence of MJ, emergency room admissions of MJ cases, MJ exposure cases, and diversion of Colorado MJ.
