# Alcohol & Tobacco

# Compliance NCDHD Report

Created August 2020

# CONTENTS

The data outlined in this report include the results from the Nebraska State Patrol alcohol and tobacco compliance checks. Failing a Nebraska State Patrol compliance check results in up to \$1,000 fine or 10-day license suspension. These penalties increase with each successive violation. Four violations can mean cancellation of license. Area Substance Abuse Prevention Coalition funds the State Patrol alcohol and tobacco compliance checks through the Region 4 Block Grant and the Drug-Free Communities Grant.

## ALCOHOL & TOBACCO ENFORCEMENT

The Nebraska State Patrol has served as the primary enforcement agency for the Nebraska Liquor Control Commission since July 1986. In addition to liquor law enforcement, the State Patrol investigates the background of liquor license applicants, complaints of alleged violations and conducts licensed premise inspections.

Questions and concerns regarding alcohol/tobacco enforcement issues should be directed to the Alcohol/Tobacco Enforcement Division of the State Patrol at (402) 471-8494. Complaints of alleged violations are kept confidential. However, a name and call back number helps provide our enforcement officers with a contact in case additional information is needed to further an investigation.

### **Written correspondence may be directed to:**

## EVALUATION

### Alcohol:

In 2017, through ASAP funding, NCDHD contracted with NSP to conduct alcohol compliance checks in Brown, Cherry, Rock, and Keya Paha counties. These checks resulted in an overall 12.2% non-compliance. In 2018, NSP was contracted to conduct alcohol compliance checks in all nine counties, resulting in an 8.1% non-compliance rate.

Alcohol compliance in the NCDHD service area has increased, hopefully because of the increase in compliance checks, before 2017 NCDHD did not contract with NSP for alcohol enforcement measures.

In 2019, alcohol compliance checks were rushed due to alterations in the State Patrol Troop boundaries. Certain memorandums of agreement were misplaced, and checks were rushed or not completed. 2019 alcohol compliance checks in Cherry County were paid for by the Partnership for Success grant. Alcohol noncompliance increased 4% in 2019; however, the same number of retailers (14) failed in 2018 and 2019. In 2019 about 40 less retailers were checked than in 2018, which speaks to the increased noncompliance rate.

The 2020 alcohol compliance checks were interrupted by the COVID-19 pandemic. Alcohol Compliance Checks were not completed in Cherry County. Of the checks that were complete in the other counties, number of completed checks were down. NCDHD would like to note these factors, as the data may be skewed as a result.

### Tobacco:

2016 was the first year NCDHD, through ASAP funding, was able to contract with NSP for tobacco compliance checks in all nine counties. Before 2016, tobacco checks were conducted in half of the counties, alternating every other year. In 2016, the NCDHD area had a noncompliance rate of 11.1%, then 12.5% in 2017. This number plummeted in 2018 with a 0.6% noncompliance rate. We attribute this drastic increase in retailer tobacco compliance to the persistent prevention efforts to keep compliance checks an annual occurrence in the NCDHD service area. Tobacco noncompliance increased 3% in 2019; however, in 2018 noncompliance was at 1.5%, so it is understandable the rates would increase slightly.

The 2020 tobacco compliance checks were interrupted by the COVID-19 pandemic. Tobacco compliance checks were not completed in Brown, Rock, and Keya Paha Counties. Of the checks that were complete in the other counties, number of completed checks were down. NCDHD would like to note these factors, as the data may be skewed as a result.
